## Education

---

### Pimpri Chinchwad College Of Engineering

*Bachelor of Technology in Computer Engineering; CGPA: 7.17*

**December 2021 – June 2025**

*Pune, India*

### Pratibha Niketan Jr. College

*Higher Secondary Education; Percentage: 83.83*

**June 2019 – August 2021**

*Nanded, India*

## Projects

---

### CopyRush | *React, Material UI/Cupertino, MongoDB, Firebase, NextAuth, Prisma* | 🐙 [Github](#)

- \* Developed a React application enabling students to effortlessly upload study materials, documents, and images, seamlessly facilitating localized print and photocopy services upon successful payment.
- \* Enhanced payment transactions through Razorpay integration, yielding an impressive 98% success rate.
- \* Strategically leveraged Material UI and Cupertino for a responsive UI and NextAuth for multifaceted authentication, ensuring data security and integrity.
- \* Managed the application's database using Prisma and seamlessly connected with MongoDB and Firebase for data monitoring and cloud storage, boosting data retrieval and cloud storage efficiency by 60%.

### NoteCascade | *Next.js, Material UI, Shadcn, MongoDB, NextAuth, Prisma* | 🐙 [Github](#)

- \* Built a full-stack web application that allows students to upload and share notes and study materials on a common platform, increasing the sharing and accessibility of educational resources by 80%.
- \* Created the UI with Material UI and Shadcn in React. Developed the backend with Next.js and Prisma, connecting to MongoDB, which improved file upload efficiency.
- \* Implemented navigation using Next.js routing, increasing usability. Secured user access with NextAuth, achieving a 99% success rate in authentication.

### Task Manager | *Next.js, React, Prisma, MongoDB* | 🐙 [Github](#)

- \* Leveraged Next.js and React to create a feature-rich Task Manager App, enhancing task organization and productivity.
- \* Revamped the user interface with React components and Material UI, resulting in improvement in user engagement and satisfaction.
- \* Integrated MongoDB a robust backend consist of Next.js and Prisma, which enhanced data retrieval efficiency by 50%.
- \* Proposed and implemented secure data management practices with Prisma and MongoDB, reducing data-related errors by 95% and ensuring application stability.

## Achievements

---

- \* **1st Prize in Website Development Competition** at TECHFEST 2022, PCCOE, Pune.
- \* Achieved **1st** in HackMatrix Inter-College Level **Hackathon**, ARTIMAS 2023, PCCOE, Pune.
- \* Earned a 5-Star Rating on **HackerRank** for exceptional performance in algorithmic challenges and coding tasks.
- \* 2 Star Rating in Programming on **CodeChef**.
- \* **Solved 250+** questions on various Coding Platforms.

## Technical Skills

---

- \* **Core :** Data Structures, Algorithms, Object Oriented Programming, Operating Systems, Database Management Systems, Computer Networks
- \* **Languages :** C, C++, JavaScript, Java, Dart, SQL
- \* **Lib /Frameworks :** Tailwind, React.JS, Node.JS, Express.JS, Flutter, HTML, CSS
- \* **Tools :** Git, NPM, Bootstrap, VS Code, Android Studio, Jupyter Notebook, R Studio
- \* **Databases :** MySQL, MongoDB, Firebase

## Certificates

---

- **Introduction to programming in C:** By NPTEL (IIT KANPUR).
- **AWS Academy Cloud Foundations:** By AWS Academy
- **AWS Academy Cloud Architecture:** By AWS Academy
- **Complete Advanced React:** By Scrimba.
- **Java Spring Framework 6 with Spring Boot 3:** By Navin Reddy Udemy.
- **Flutter Dart - The Complete Guide:** By Maximilian Schwarzmüller Udemy.
